RNs speaking out against unsafe conditions

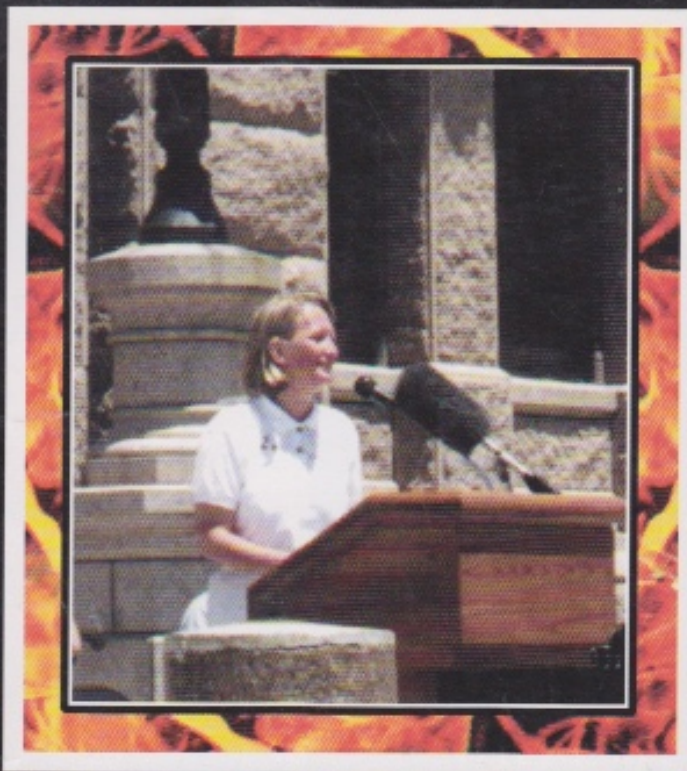

RNs speaking out against unsafe

RNs speak out against unsafe conditions

It is time for nurses to "raise hell" and make legislators aware of the unsafe patient conditions!

Mary Lou McLain RN, President of TURN (Texas United Registered Nurses) and state coordinator for the demonstration, lauded the “front-line” nurses who are in the trenches trying to provide safe, quality care. Nurses must act for themselves and their patients by supporting legislation that will protect those who speak out against unsafe practices, provide full disclosure of nurse:patient ratios and expose the corporate greed that results in substandard care in the name of profits.

AMEN!
